Description :

PDF-53cd7 | According to the conventional wisdom, we live in a post-industrial information age. This book, however, paints a different picture: We live in the age of oil. Petroleum fuels and feedstocks are responsible for much of what we take for granted in modern society, from chemical products such as fertilizer and plastics, to the energy that moves people and goods in a global economy. Oil is a nearly p... *The First Half of the Age of Oil: An Exploration of the Work of Colin Campbell and Jean Laherrère (SpringerBriefs in Energy)*
