Description :

PDF-7b705 | Technology, at least in theory, is improving our productivity, efficiency, and communication. The one thing it's not doing is making us happier. We are experiencing historically high levels of depression and dissatisfaction. But we can change that. Knowing that technology is here to stay and will continue to evolve in form and function, we need to know how to navigate the future to achieve... *The Future of Happiness: 5 Modern Strategies for Balancing Productivity and Well-Being in the Digital Era*
